HEAVY SNOWFALL.

An Abundance Covers the Ground,

Giving Pleasing Assurances. Castle Gate, Feb. 1.—This week has been fraught with some of the heaviest snowstorms that have ever fallen here in fact, there is no way to gauge the amount that has fallen. It abated for short periods, yet when the people thought that a spell of good weather was to be enjoyed the clouds gathered at night and when the men turned out for work next morning "the beautiful" was coming down in good style, and the finish is not yet, for it is still snowing this evening. The district school is having a short suspension, owing to a teachers' examination.

WILL HOLD SPECIAL ELECTION. Proposition to Bond Town For Waterworks System.

works System.

(Special to The Herald.)

Price, Feb. 3.—The town board has ordered a special election to be held on March 7 next on the proposition to bond the town for a system of waterworks that will cost to begin with \$15,600 to \$20,-600, according to pians and specifications submitted by a Salt Lake engineer. About \$7,000 will be raised from bonds and the balance can be paid out of the money on hand and the revenues as they come in each year. The people generally favor the proposition, as they realize that with good schools, which the town already has, and better water this place can be made the most attractive in all eastern Utah for homes, especially for sheepmen and

Course to Pursue. Many physicians who advertise to cure piles, without the aid of the knife, simply use Pyramid Pile Cure remedies. They do so because they know it is the best medicine for obtaining a proper combination of the most scientific in-

gredients for the cure of piles.

Pyramid Pile Cure is not in an experimental stage, but is an established remedy and is recognized and used by remedy and is recognized and used by the best physicians in the country. Being in suppository form, it reaches the trouble at once and the healing process is quick and effective; immediate results are obtained, and before the patient realizes the fact he has recovered from the pain, suffering and irritation which this trouble causes.

Children who suffer from this painful trouble obtain relief at once. It is well with a very young child to reduce the size of the suppository before using. However, if children are afflicted with piles, they should be treated without delay or the trouble may become chron-

direction by enacting an ordinance as asked for by all the saloon men in a petition presented to the council Monday evening. The petition reads as follows:

"To the Honorable City Council of Provo City, Utah, Feb. 2, 1966.
"To the Honorable City Council of Provo City, Utah, Feb. 2, 1966.
"To the Honorable City Council of Provo City, Utah, hereby respectfully petition your honorable body as follows:

"We are informed and believe, and therefore state the facts to be, that large quantities of intoxicating liquors are being sold in this city by the glass and dram for gain by persons who are not licensed as retail liquor dealers, and that said liquors are drunk by the purchasers upon the premises where sold. This practice is an infringement upon the rights of your petitioners, who, under the ordinances of Provo City, Utah, are required to pay a license of \$300 per quarter. Said practice is a discrimination against us, and we believe that it is within your power to prevent the same by the enactment of an ordinance making the penaltry for selling intoxicating liquors for gain by the dram or drink, where the same are drunk upon the premises where sold, without the seller first having obtained a proper license so to do, consist of both fine and imprisonment. We think that section 364 of chapter xiix of the revised ordinances of Provo City, Utah, can be amended so as to accomplish this, and without otherwise amending or interfering with any other section of this chapter.

"Now, therefore, we hereby earnestly petition your honorable body to enact, without delay, an ordinance fixing a minimum penalty of ten days imprisonment and \$25 fine for any person found guilty of selling for gain any intoxicating liquors by the dram or drink, to be drunk on the premises where sold, without first having taken out a retail liquor dealer's license as provided in chapter xiix of the revised ordinances of Provo City, Utah, and he case said ordinance is passed and becomes a law, we each hereby pledge ourselves to sid and assist the public o

sidewalk was granted on a favorable report by the committee on streets and alleys.

C. F. Decker, of the committee on fire department, reported a set of rules for the regulation of the fire department. The rules provide that someone shall be at the fire hall all the time, and recommend that a man be hired to take the place of the fire chief, while he is at meals, and at other times to assist in the waterworks, street supervisor and irrigation departments.

Mr. Carter, the other member of the committee on fire department, presented a set of regulations for the department. This did not provide for an extra man, nor for a man to be at the hall at noon hour. Mr. Carter was rather in favor of the first report, but he had brought in his report because he wanted the committee relieved of the matter, and presented his report so that if the council did not like one set of rules it could adopt the other. Mr. Carter's rules were adopted. The committee on judiciary reported a new liquor ordinance. The principal change made is that the license is placed at \$300 a quarter without the rebate of \$200 when the license is taken for one year, as was given by the old ordinance. The report was laid on the table to come up at a future meeting.

The water commissioner was instructed to take the measurements of the waters from canals controlled by Provo City each month and to preserve a record.

mighty deep Atlantic, passing through many trials and difficulties. She landed in New York City, where her home was located for some time. At the age of 16 years she connected herself with the Church of Jesus Christ of Latter-day Saints in the state of New York. Some time later she fell in love and married the man already named, the ceremony being performed by the late Apostle Parley P. Pratt in New York City.

The then young couple emigrated to Missouri about the year 1839, meeting with the Saints in Nauvoo a little later. They were among the families who passed through the many trials and privations of the early pioneers of these valleys and proved true to the faith they embraced until death took them away from this earthly probation. Seven boys and three girls were born to this couple during their long and happy married life, and among these surviving them are Azariah Tuttle of Orangeville, ex-sheriff of that county, together with his brother. REPORT IS WITHHELD.

Street Car Company Promises to

Make Necessary Improvements. A regular meeting of the board of governors of the Commercial club was held last evening. The session was a long one and was devoted largely to the discussion of two questions. One to the discussion of two questions. One of these was the report of the street car committee. The other was the bill creating a water commission in cities of the first class in Utah. The bill was carefully gone over and the objects and benefits explained in detail by Judge O. W. Powers. The bill was approved by the board and will be introduced in the legislature during the latter part of the week. The street car report received considerable attention, and at the close of the session the following official statement was given out:
